MANIKANDASWAMY T

UX Designer | UI Designer | Web Designer

Passionate and experienced UX/UI Designer with over 15+ years of expertise in creating intuitive, user-centered designs for web and mobile applications. Proficient in delivering elegant, responsive designs that enhance user interaction and meet business goals. Strong background in leading cross-functional design projects, prototyping, and leveraging design tools to improve functionality and user experience.

Professional Experience

- Apr 2021 - Till date
Evalground Software Pvt Ltd., Bangalore
Senior Technical Associate - UI/UX Design
Led the conceptualization, Figma-based design, and Bootstrap prototyping of innovative features, delivering a superior and user-centric platform experience. Fostered a collaborative and agile environment, leveraging cross-functional expertise to create solutions that aligned with user needs and business objectives. Implemented a continuous improvement strategy, ensuring the platform stayed dynamic, adaptable, and relevant to evolving user expectations. Designed and contributed to an intuitive and cohesive user interface, enhancing usability, accessibility, and overall functionality.
- May 2018 - Mar 2021
Abyeti Technologies Pvt Ltd., Bangalore
Technical Associate - UX Design
Designed and developed innovative features using Figma, Adobe XD, and Bootstrap 5, with a strong focus on responsive design and a user-centered approach. Collaborated with cross-functional teams to uncover user pain points and deliver tailored solutions, enhancing platform usability and visual appeal. Proactively addressed UI/UX bugs and optimized functionality, ensuring a smooth, intuitive, and engaging user experience across devices. Embraced modern design practices and HTML development, consistently driving improvements to meet evolving user and business requirements.
- Sep 2016 - Apr 2018
Nextweb Technologies Pvt Ltd., Bangalore
Project Lead - UX Design
Partnered with a multi-disciplinary design team to plan and execute comprehensive user research, ensuring data-driven insights shaped user-friendly interfaces and digital solutions. Designed cohesive prototypes and digital assets using Adobe XD and the Adobe Creative Suite, delivering high-quality, visually appealing outcomes. Conducted User Interface design reviews to maintain consistency, enhance quality, and ensure adherence to UI standards across projects. Established and enforced UI standards to achieve a unified, professional look that elevated the overall user experience. Developed workflows, planned, and executed A/B user testing, analyzing feedback to iterate and improve UI designs effectively.
- Jan 2014 - Aug 2016
Faststream Technologies Pvt Ltd., Bangalore
Senior Web Designer
Developed detailed process flows, wireframes, and visual design mockups to effectively conceptualize and communicate complex interaction behaviors. Created process flows to map out user journeys, ensuring a seamless and intuitive experience throughout the system. Designed wireframes to establish the structural layout, enabling clear alignment on functionality and project goals among team members. Produced high-fidelity visual mockups to provide realistic representations of the final product, bridging the gap between concept and execution. Leveraged these tools to enhance collaboration across teams, streamline workflows, and deliver user-focused design solutions efficiently.
- Mar 2012 - Dec 2013
Angler Technologies (P) Ltd., Coimbatore
Senior Web Designer
Designed cohesive and visually appealing web UI, product UI, logos, social media banners, mobile UI, and app icons using Adobe Creative Suite, ensuring brand consistency and recognition across all platforms. Aligned visual elements to effectively communicate brand identity, delivering seamless and engaging user experiences that enhance user satisfaction and retention.
- Jul 2009 - Feb 2012
JATechnologies., Coimbatore
Web Designer
